EDUCATION

- I am pursuing B.tech in the domain of computer science
 - BITS college Bhopal, MP
 - 6th semester CGPA 7.23
 - Passing year 2026
- XII (CBSCE) | Narmada valley International School, Narmadapuram
70% | 2022
- X (CBSCE) | Narmada valley International School, Narmadapuram
70% | 2020

PROJECTS

- **WONDERLUST** [click](#)
 - Wonderlust is a full-stack travel planning web application inspired by Airbnb, designed to help users explore destinations and manage accommodation listings. Built using Node.js, Express.js, MongoDB, and EJS, the platform provides full CRUD functionality, allowing users to create, view, edit, and delete listings seamlessly. The project leverages Tailwind CSS for a responsive, modern, and user-friendly interface. Developed following the MVC architecture, Wonderlust offers a clean, scalable structure that enhances maintainability and performance
- **FILE-ARRANGER SYSTEM** [click](#)
 - The File Arranger System is a Python-based automation project that organizes files in a directory based on their type, extension, or custom rules. It automatically categorizes documents, images, videos, audio, and other file formats into separate folders, reducing clutter and improving file accessibility. The system leverages Python's os and shutil modules to perform file handling operations efficiently, file system management, and Python scripting while solving a real-world problem of manual file organization.
- **Food recipe** [click](#)
 - This website generates high-quality food recipe images. It includes a search bar where users can search for any food image. I built this website using a food recipe API.

SKILLS

- JAVA

- SQL
- REACT JS
- HTML, CSS , JAVASCRIPT

Achievements

- **200+** Problems solved on **GFG**
- **100+** Problems solved on **Leetcod**
- **50** on other platform

Soft Skills

- Communication
- Problem Solving
- Leadership
- Time Management
- Creativity

HOBBIES AND QUALITY

- Playing Online Games
- Reading
